

Early-18th Century Walnut Chest-on-Stand

A magnificent walnut chest-on-stand dating from around 1720. The drawers veneered in book-matched burr veneers, with herringbone banding. All original handles – and even the cabriole legs have survived, all apart from the back right leg, which was replaced in the nineteenth century. A wonderful colour.

Height: 180cm Width: 104cm Depth: 57.5cm
